Professional Summary

Full-stack Web Developer with hands-on experience building scalable MERN applications, REST APIs, secure authentication systems, and workflow automation using n8n. Passionate about solving real-world problems and currently seeking Software Development Internship opportunities.

Education

Government Engineering College

2024 – 2028

Bachelor of Technology in Information Technology

CGPA: **8.5**

Relevant Coursework: Object-Oriented Programming, DBMS, Operating Systems, Computer Networks, Digital Electronics, Computer Architecture, Microprocessor.

Technical Skills

Languages: JavaScript (ES6+), C, C++

Frontend: React.js, HTML, CSS, Tailwind CSS, Framer Motion

Backend: Node.js, Express.js, REST APIs, JWT, Socket.io

Database: MongoDB, Firebase

Tools & Platforms: Git, GitHub, Postman, Vercel, Render, n8n

Experience

Web Developer Intern — JobLuxe

Apr 2026 – Present (Remote)

- Developed and maintained responsive web applications using React.js, Node.js, Express.js, and MongoDB.
- Built and maintained RESTful APIs, implemented JWT-based authentication and authorization, and integrated payment gateway functionality.
- Worked on both frontend and backend development, improving application performance, responsiveness, and overall user experience.
- Automated workflows and business processes using n8n, reducing repetitive manual tasks.
- Collaborated with the development team to debug issues, optimize code quality, and deploy scalable production-ready features.

Projects

Basera (Student Accommodation Platform)

Live

- Built a full-stack accommodation platform using React, Node.js, Express, and MongoDB.
- Implemented advanced search and filtering based on price, location, and amenities.
- Developed REST APIs with a responsive UI using React (Vite) and Tailwind CSS.
- Deployed frontend on Vercel and backend on Render.

Blog Post Manager (MERN Stack)

Live

- Built a MERN-based blog management system with complete CRUD functionality.
- Implemented JWT authentication, role-based authorization, admin dashboard, and Cloudinary image uploads.
- Added search, filtering, pagination, CSV export, and rich text editor support.
- Improved user experience through optimized state management and reusable component architecture.

CodeArena (Hackathon Management Platform)

Live

- Developed a hackathon management platform supporting complete event lifecycle management.
- Built team formation, leaderboard, real-time tracking, mentorship, interview scheduling, and evaluation modules.

Achievements

- Secured **4th Position** among 200+ teams in a National Level Hackathon conducted by Symbiosis University of Applied Sciences, Indore.
- Finalist at **NHIDE 2026** hosted by Guru Ghasidas Vishwavidyalaya among the top teams across India.
